

MAT 211 Calculus III, Section 01, CN 40559 Fall 2022

Class meets MWF 8:30 AM - 9:55 AM in SBS B203.

Instructor: Serban Raianu, office: NSM E-108, office phone: (310) 243-3139, cell phone: (657) 204-5612; e-mail address: sraianu@csudh.edu, URL: <http://math.csudh.edu/~sraianu>; office hours: Monday, Wednesday, Friday: 10:00 AM – 11:20 AM, or by appointment.

Course Description: MAT 211, Calculus III, covers from the textbooks: Multivariable calculus: analytic geometry, scalar and vector products, partial differentiation, multiple integration, change of coordinates, gradient, optimization, line integrals, Green's theorem, elements of vector calculus.

Text: **CLP-3 Multivariable Calculus and CLP-4 Vector Calculus**, by Joel Feldman, Andrew Rechnitzer, Elyse Yeager, available online at <http://www.math.ubc.ca/~CLP/>

Objectives: After completing MAT 211 the student should be able to:

- Gain an intuitive understanding of functions of several variables via level curves and surfaces, and related concepts of limit, continuity and differentiability.
- Perform partial differentiation and multiple integration of functions of several variables.
- Change from Cartesian co-ordinates to polar, cylindrical or spherical co-ordinates and vice versa, perform differential (partial or ordinary) and integration (multiple or single) in curvilinear co-ordinate systems and effect transformation via the Jacobian.
- Utilize vectors to deal with spatial curves and surfaces, and calculus of several variables
- Understand and use the concepts of vector calculus: gradient, curl, divergence, line and surface integrals, Green's, Stokes' and the divergence theorem.

Prerequisites: MAT 193 or equivalent with a grade of "C" or better.

Grades: Grades will be based on **three full period written examinations** (60% total), a comprehensive **final examination** (25%), and **quizzes, homework** and (possibly) other assignments (15%) for the remainder. The exact grading system for your section is the following:

No makeup examinations will be given. The exams are taken in class and graded on Gradescope. If you must miss an examination for a legitimate reason, discuss this, in advance, with me, and I may then substitute the relevant score from your final examination for the missing grade. Each of the **three exams** will be graded on a 0-20 scale, then the sum of the scores is denoted by E.

Homework will be due every week, the day before quiz days, and each homework is worth 5 points. Each week one of the problems from the homework due for that week will be selected and graded on a scale from 0 to 2. The remaining 3 points will be awarded for completeness of the homework assignment. Submitting solutions copied from the back of the book will bring little or no credit, since copying solutions will not prepare you for answering questions during the oral examinations. The average of all homework scores is denoted by H. Homework will be submitted as a pdf with your paper work on Gradescope. There is no need to match the pages with the problems when submitting the homework, see

<https://www.youtube.com/watch?v=u-pK4Gzpld0>

Gradescope can be accessed from the link your Canvas course, and you can practice submitting your work on Gradescope using the assignment called Submission practice, which will remain open throughout the semester. You might be asked to explain your work on a submitted problem. Failure to provide an explanation might result in a score of zero for the entire homework assignment. No late homework will be accepted.

15 minutes quizzes will be given every week, and will be graded on a scale from 1 to 10. The average of the quizzes scores is denoted by Q. Each quiz will consist of one problem, similar but not necessarily identical to one of the homework problems assigned for that week. The quiz will be taken in class and graded on Gradescope. No makeup quizzes will be offered.

The **final exam, will contain problems similar to problems assigned as homework throughout the semester**, will be graded out of a maximum possible 25 points, then the score is denoted by F. The final exam will be taken in class and graded on Gradescope.

Extra credit opportunities will be announced in class.

To determine your **final grade**, compute $E+H+Q+F$. The maximum is 100, and the grade will be given by the rule:

A: 93-100; A-: 90-92; B+: 87-89; B: 83-86; B-: 80-82

C+: 77-79; C: 73-76; C-: 70-72; D+: 67-69; D: 60-66; F: Less than 60.

You will be able to follow your progress in the class in Canvas under Grades throughout the semester.

Accommodations for Students with Disabilities: California State University, Dominguez Hills adheres to all applicable federal, state, and local laws, regulations, and guidelines with respect to providing reasonable accommodations for students with temporary and permanent disabilities. If you have a disability that may adversely affect your work in this class, I encourage you to register with Student disAbility Resource Center (SdRC) and to talk with me about how I can best help you. All disclosures of disabilities will be kept strictly confidential. Please note: no accommodation may be made until you register with the SdRC in WH D-180. For information call (310) 243-3660 or to use telecommunications Device for the Deaf, call (310) 243-2028.

Academic Integrity: The mathematics department does not tolerate cheating. Students who have questions or concerns about academic integrity should ask their professors or the counselors in the Student Development Office, or refer to the University Catalog for more information. (Look in the index under "academic integrity".)

Tentative schedule and homework assignments

M 8/29:	From CLP-3: 1.1 Points: 1,2,3; 1.2.1 Vectors, add, multiply by scalar: 1,2,16
W 8/31:	1.2.2 Dot product: 3,6,7,21,22,23
F 9/2:	1.2.5 Cross product: 8,9,10,26,27,28,29
M 9/5:	Labor Day
W 9/7:	1.3 Lines in 2d: 5,6,7; 1.4 Planes in 3d: 4,5,6,7,8; 1.5 Lines in 3d: 3,4,5,6,7
F 9/9:	1.6 Curves and their tangent vectors: 10,11,12,13,14,15,16,17
M 9/12:	1.7,1.8,1.9 Surfaces: 7,8,9,10,11
W 9/14:	2.1 Limits: 6,7,8,9,10,11
F 9/16:	2.2 Partial derivatives: 3,4,5,6; 2.3 Higher order derivatives: 3,4,5
M 9/19:	2.4 Chain rule: 1,4,5,6,7,8,9
W 9/21:	2.5 Tangent planes and normal lines: 5,6,7,8,9,10,11,12,13
F 9/23:	2.6 Linear approximation and error: 3,4,5,6,7
M 9/26:	Review 3
W 9/28:	Exam 1
F 9/30:	2.7 Directional derivatives and the gradient: 1,2,3,4,5,6,7
M 10/3:	2.9 Maximum and minimum values: 4,5,6,15,16,17
W 10/5:	2.10 Lagrange multipliers: 3,4,5,6,7,8
F 10/7:	3.1 Double integrals: 1,2,3,4,5,6,7
M 10/10:	3.2 Double integrals in polar coordinates: 1,2,3,4,5,6,7,8,9,10
W 10/12:	3.3 Applications of double integrals: 2,3,4,5,6
F 10/14:	3.4 Surface area: 4,5,6,7,8,9,10
M 10/17:	3.5 Triple Integrals: 1,2,3,5,6
W 10/19:	3.6 Triple integrals in cylindrical coordinates: 1,2,3,4,5,6,7,8
F 10/21:	3.7 Triple integrals in spherical coordinates: 1,2,3,4,5,6,7,8,9,10
M 10/24:	From CLP-4: 1.1 Curves, derivatives, velocity, etc.: 1,2,3,4,14,15,16,17
W 10/26:	Review
F 10/28:	Exam 2
M 10/31:	1.2 Reparametrization: 1,2,3,4,5
W 11/2:	1.6 Integrating along a curve: 1,2,4,5,6,7,8
F 11/4:	2.1 Vector fields, definitions and first examples: 1,2,3,4,5,6,7,8
M 11/7:	2.3 Conservative vector fields: 1,2,3,4,5,6,7,8
W 11/9:	2.4 Line integrals: 3,4,5,6,8,9,10,11,12
F 11/11:	Veterans Day Holiday
M 11/14:	3.1 Parametrized surfaces: 1,2,3,4,5,6
W 11/16:	3.2 Tangent planes: 6,7,8,9,10,11,12
F 11/18:	3.3 Surface integrals: 4,5,6,7,8,9,10
M 11/21:	3.4 Interpretation of flux integrals: (from 3.3) 24,25,28,29,30,35,36
W 11/23:	4.1 Gradient, divergence and curl: 1,2,3,4,5
F 11/25:	Thanksgiving Break
M 11/28:	4.2 The divergence theorem: 1,2,3,4,5
W 11/30:	4.3 Green's theorem: 1,2,3,4,5,6,7,8
F 12/2:	4.4 Stokes' theorem: 1,2,3,4,5,6,7
M 12/5:	Review
W 12/7:	Exam 3
F 12/9:	Final review

Final examination: Wednesday, December 14, 8:30 AM - 10:30 AM.

Important Dates:

August 29	Monday	Classes Begin
August 29-September 16	Monday-Friday	Late Registration and Add/Drop via MyCSUDH - fees due 48 hours after registration
September	To Be Announced	Fall Convocation
September 5	Monday	Labor Day Holiday (No Classes, Campus Closed)
September 9	Friday	Instructor Drop Deadline
September 17-22	Saturday-Thursday	Late Registration and Add/Drop via MYCSUDH - fees due at time of registration
September 22	Thursday	Credit/No Credit and Audit Grading Deadline
September 22	Thursday	Fall 2022 Graduation Application Deadline (with late fee)
September 23	Friday	Last Day to Drop from FT to PT Status with Refund
September 23	Friday	Drop Without Record of Enrollment Deadline via Change of Program Form
September 23	Friday	Student Census
September 26-November 18	Monday-Friday	Serious and Compelling Reason Required to Withdraw
October 1	Saturday	Spring 2023 Graduation Application Deadline (without late fee)
October 13	Thursday	The Great California ShakeOut at 10:13 am
October 24-January 22	Monday-Sunday	Spring 2023 Registration via MyCSUDH
October 29	Saturday	Last Day for Pro-rata Refund of Non-Resident Tuition and Tuition Fees
October 31-December 20	Monday-Tuesday	Winter 2023 Registration
November 1	Tuesday	First day to file for Summer 2023 Graduation
November 11	Friday	Veterans Day Holiday (No Classes, Campus Closed)
November 21-December 9	Monday-Friday	Serious Accident/Illness Required to Withdraw
November 24	Thursday	Thanksgiving Day Holiday (No Classes, Campus Closed)
November 25-27	Friday-Sunday	Thanksgiving Break (No Classes, Campus Closed - Not a Holiday)
November 28-February 16	Monday-Thursday	Spring Intersession 2023 Registration (Pell Grant eligible students)
November 28-May 23	Monday-Tuesday	Spring Intersession 2023 Registration (Students Not Using Pell Grant)
December 9	Friday	Last Day of Scheduled Classes
December 10-16	Saturday-Friday	Final Examination
